- Strong skills in business analysis, requirement gathering, and stakeholder collaboration.
- Eager to apply knowledge of project management tools and techniques to real-world projects in a professional setting.
- Passionate about contributing to organizational growth through effective project management and solution evaluation.

WORK EXPERIENCE

01

Project: Agile

Role: BA

Responsibilities:

- Worked on elicitation techniques to gather and validate requirements.
- Created user stories with detailed acceptance criteria, and prioritized these stories into the product backlog using JIRA.
- Used Moscow and FURPS techniques to prioritize requirements and update the sprint backlog accordingly.
- Worked on BV and CP, contributing to the development of DOR and DOD checklists.
- Generated Sprint and Product Burn Down/Burn Up Charts to monitor progress.
- Played a key role in UAT and product planning to ensure each sprint delivery was successful.

02

Project: Waterfall

Role: BA

Responsibilities:

- Performed Enterprise Analysis, assisted in crafting a Business Case Document, and led Stakeholder Analysis with a focus on preparing the RACI Matrix.
- Gathered requirements using Elicitation Techniques and compiled them into a detailed Business Requirements Document (BRD).
- Translated the BRD into a Functional Requirements Document (FRD)
- Created UML diagrams and wireframes using tools like MS Visio, Balsamiq, and Axure to represent requirements visually.
- Maintained the RTM to ensure traceability throughout the project.
- Finalized the project by preparing Test Case Scenarios and ensured successful UAT.
